SRM IST, Kattankulathur – 603 203 Course

Code: 18CSC206J

Course Name: Software Engineering and Project Management

Experiment No	12
Title of Experiment	Manual Test Case Reporting
Name of the candidate	Papai Mondal
Team Members	Dhruv Deshmukh , Atharva Sohani
Register Number	RA2111028010116
Date of Experiment	20/4/23

Mark Split Up

S. No	Description	Maximum Mark	Mark Obtained
1	Exercise	5	
2	Viva	5	
Total		10	

Staff Signature with date

Aim

To prepare the manual test case report for the Movie Recommendation System.

Team Members:

S No	Register No	Name	Role
1	RA2111028010125	Dhruv Deshmukh	Lead
2	RA2111028010116	Papai Mondal	Member
3	RA2111028010105	Atharva Sohani	Member

Manual Test Case Report:

Test Case	Objective	Test Steps	Expected Result
1	User Login	1. Navigate to the Movie website. 2. Click on the 'Login' button. 3. Enter valid login credentials. 4. Click on the 'Submit' button.	The user should be redirected to the homepage.
2	User	1. Login to the system. 2. Click on the 'Profile' icon. 3. Edit the user's profile information. 4. Click on the 'Save' button.	The user's profile information should be updated.
3	Video/Movie Recommendation	1. Login to the system. 2. Watch a few videos/movies. 3. Navigate to the 'Recommended' section. 4. Verify that the system provides accurate recommendations.	The system should provide recommendations that are relevant to the user's watch history and preferences.
4	Video/Movie Search	1. Login to the system. 2. Click on the 'Search' icon. 3. Enter a valid search query. 4. Click on the 'Search' button.	The system should return relevant search results.

Conclusion:

The Movie Recommendation System is an essential component of the Movie platform. It is important to ensure that the system functions properly to provide a seamless user experience. By performing the manual test cases mentioned above, we can ensure that the system meets the requirements and specifications.

Present difficulties to proceed further:

Seeking help from stakeholders:

- 1.Reach out to stakeholders: Identify the stakeholders who are in a position to help you overcome the obstacles. These could include project sponsors, team members, external partners, or other stakeholders who are invested in the project's success.
- 2.Explain the situation: Clearly communicate the challenges you're facing and the impact they're having on the project. Be open and transparent about the situation and the specific help you need to overcome the obstacles.
- 3.Collaborate on solutions: Work together with stakeholders to identify possible solutions to the obstacles. Brainstorm and evaluate different approaches to find the best solution that works for everyone.
- 4.Create an action plan : Once you've agreed on a solution,create an action plan that outlines the specific steps that need to be taken to remove the obstacles.Assign responsibilities,set deadlines,and track progress to ensure that the plan is implemented effectively.

Category	Progress Against Plan	Status
Functional Testing	Green / Amber / Red	Not-Started / In-Progress / Completed
Non-Functional Testing	Green / Amber / Red	Not started / In progress / Completed

Result:

Thus, the test case report has been created for the Movie Recommendation System.
